

Hogwarts Hacked List

Julieta Fernandez Alvide

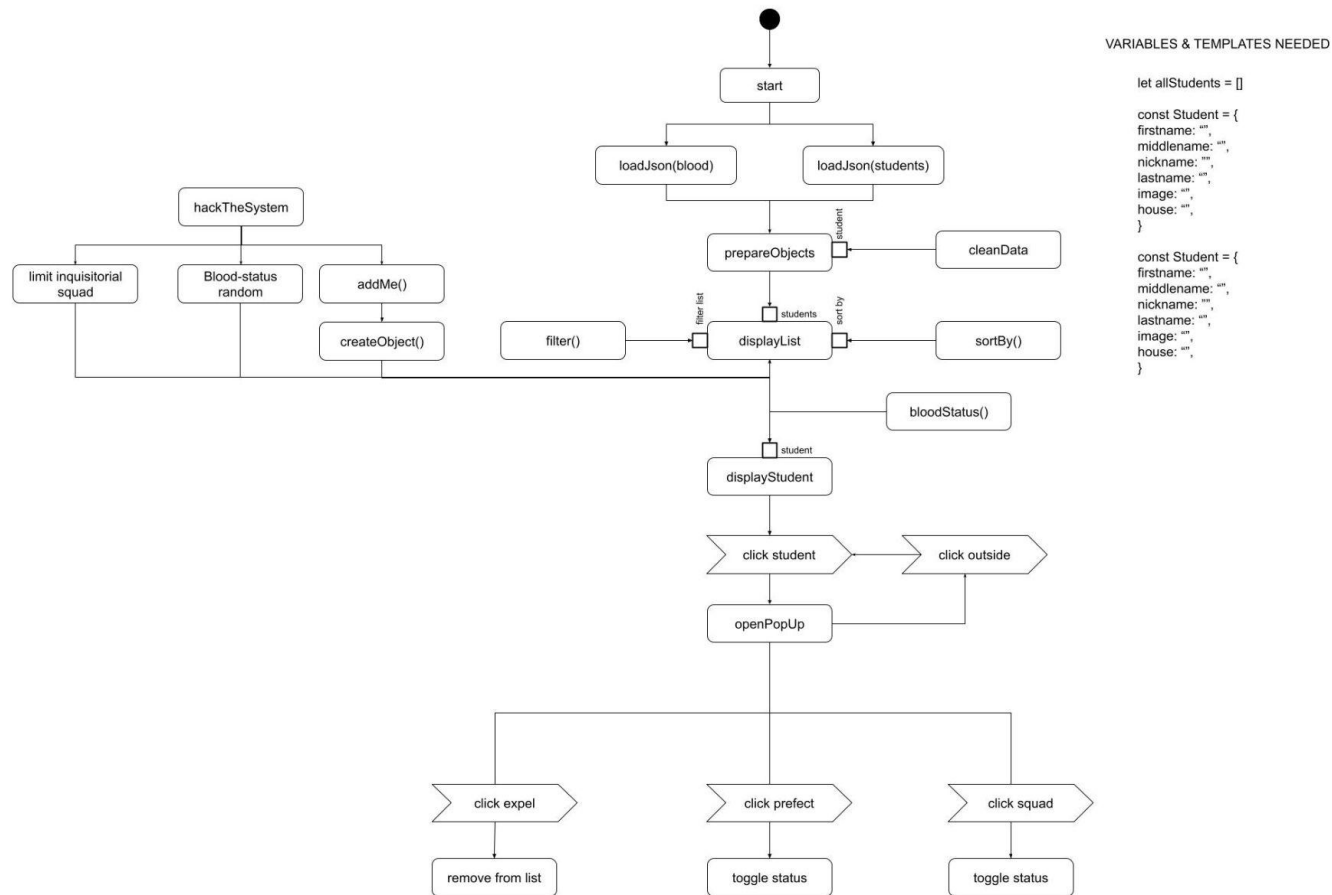

Wireframes

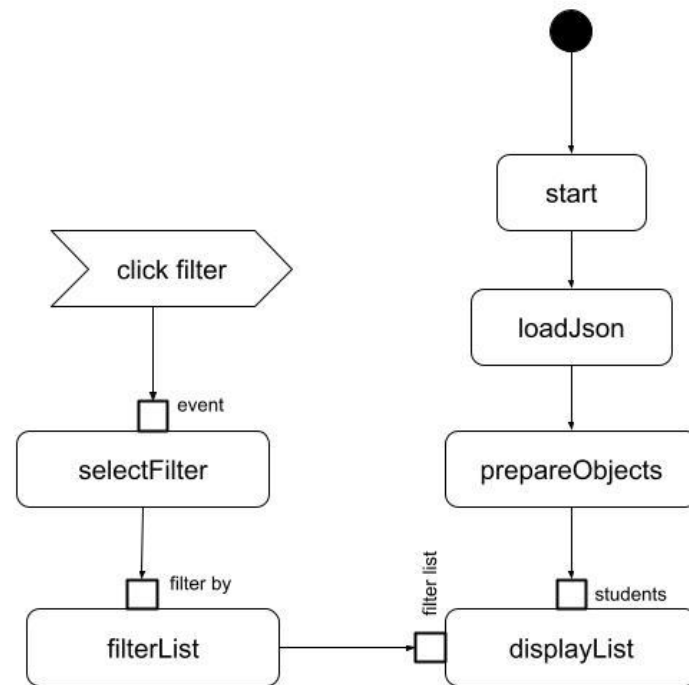

The image displays a grid of 16 user profile cards, arranged in 4 rows and 4 columns. Each card features a square profile picture placeholder at the top, followed by the text 'Name & Last name', 'Blood status', and a row of three status buttons: 'PREFECT', 'EXPELLED', and 'MEMBER'. At the bottom of each card are three small square icons. A central modal window is overlaid on the grid, containing a larger profile picture placeholder, the text 'Name & Last name', 'Blood status', and 'PREFECT | EXPELLED | MEMBER'. Below this text are three larger square icons. The entire interface is rendered in a light gray, wireframe-like style.

The screenshot displays a grid of student profiles. Each profile card contains a placeholder image, the student's name, their blood status, and a set of three icons (a red 'X', a green checkmark, and a blue 'P'). A central white modal dialog box is overlaid on the grid, asking 'Are you sure you want to expelled this student?'. The dialog has two buttons: a black 'No' button and a white 'Yes' button with a black border. The background grid shows multiple identical student cards, suggesting a list of students to be managed.

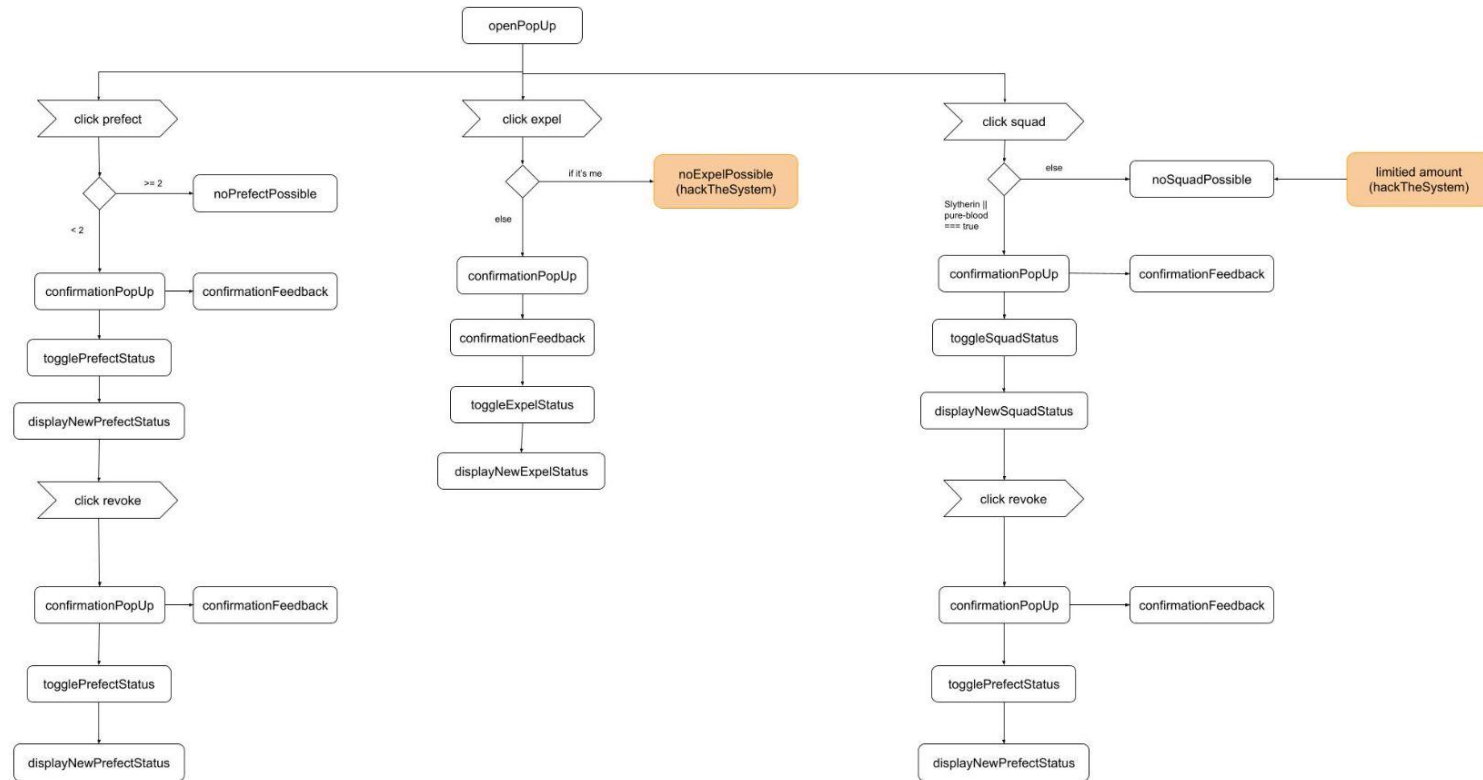

Activity Diagram - General

Activity Diagram - Filtering (missing Sorting)

Activity Diagram - Pop up actions

Can / Can't list

JSON	Fetch json - student list		Green
	Fetch json - families		Green
	Fetching two API at the same time		Red
Template	Prepare objects (forEach)		Green
	Display each student		Green
	Clean data (separate each piece of info)		Green
View Display	Filter students		Green
	Sort by options		Yellow
Styling & Customizations	Create pop up window		Green
	Add animations and customizations in styling		Yellow
	Add styling in poup depending in house crest		Green
Objects in array	Allow user to expelled student		Yellow
	Add & remove student from inquisitorial squad		Yellow
	Add / remove prefect status		Yellow
Blood status	Implement racial profiling		Yellow
hackTheSystem function	Add myself to array		Red
	Prevent user from expelling me		Red
	Set blood-status random		Red
	Limit amount of students in squad		Red
